

ALUMNI HAPPENINGS

yesterday, today and tomorrow ...

Dear Friends,

Thank you to so many of you that responded to our first Alumni Newsletter. You won't believe how excited I was when I read your responses! I had the joy of hearing from the following:

- John Tessier – class of 1955
- Joseph H. Stupey – class of 1957
- George Huchting – class of 1958
- Kathleen Sharp – class of 1964
- Klemm, W. (Clayton) – class of 1966
- Martha Marin – class of 1977
- Mary Hatcher-Skeers – class of 1984
- Karen L. Conlan - class of 2000
- Stella Mejia – class of 2000

I hope *all of you graduates* out there will continue to stay in touch and also, continue to share your memories of your time at PC. Sometimes just the recollection of a happy memory, no matter how long ago it happened, will give us a warm feeling that slowly begins to energize us and begins to give us the strength to go forward. And yes, sometimes that memory is just what we need to see how much God loves us and just how much He needs us to carry on with whatever He has us doing or trying to do ... yes, I truly believe that God uses us to help bring a smile to the face of His special people who need happy thoughts to help them get through their days ... It's very much like the memory that **Joseph Stupey '57** shared in his response to our first newsletter...

Dear Sister Feliz Gil-Jimenez,

Thank you for your email to us alumni. I was in the class of 1957 and am retired and presently living in Everett, Washington State. My memories and affection for Pomona Catholic remain steadfast through all of these decades. I did attend the reunion that occurred in 1997. I would certainly be interested in any news regarding any reunion in 2017 which would incredibly be our 60th year. *Sometimes it seems like yesterday that I was a student there.*

*One memory that stands out is the afternoon when Sister Benilda canceled all classes for the remainder of the day and had the entire student body assemble in the auditorium to watch the film **The Treasure of the Sierra Madre** with its moral lesson about the folly of greed. That film made me a passionate lover of movies and I guess one could say I am film buff due to the influence of that experience that day long ago. I would be interested in donating to the school in the near future.*
~ Joseph H. Stupey

I know that all of you must have some happy memories too ... don't be shy. The memory you share might be just what one of your classmates needs to hear! Thank you for being a part of the legacy of Pomona Catholic. As I tell our students, they have the privilege of attending a school that has touched *three centuries* ... yes, since 1898 ... and obviously God acknowledges that this valley needs Pomona Catholic here since it is the only institution that continues to provide a Catholic high school education for the young women of this area.

Remember to pray for us here at Pomona Catholic so that we can continue to guide all of our students.

Peace and blessings,

Sister Feliz Gil-Jimenez, Development Associate
